## Priorities and Research Agenda for the Higher Education Quality Council of Ontario (HEQCO, August 2006)

---

This paper was distributed in August 2006 to the heads of Ontario's postsecondary education institutions and associations, and to those with a research interest in postsecondary education for comments on the priorities and research agenda that the Higher Education Quality Council of Ontario should adopt during its initial years of operation.

Over forty responses were received by the Council. The Council is currently reviewing those responses and, based on them, will propose to host a series of follow-up meetings organized around critical issues that warrant further exploration and debate.
